

Activities – On Water

The UK is blessed with many spectacular water based venues which are the perfect backdrop for M&MR's extensive range of activities on water. Energetic, pulsating or plain relaxing – just take your pick.

For further details, simply contact M&MR on **01295 770933**

Raft Building

Usually wet, always very funny – contestants take to the water as they try to out-build and out-row their opponents' rafts on a lake or river. Prepare for splash-down!

Dragon Boat Racing?

With over 2,000 years of history, Dragon Boat Racing is a colourful, dynamic & exciting way of motivating and integrating staff. Part of the sport's amazing appeal is its ability to get everyone working together in a very short space of time giving a real and lasting sense of individual achievement and team spirit.

Off-Shore Sailing

A variety of sailing packages are available, from a day's sailing on the Solent to a five-day adventure to Spain and back. You may like to learn the basics in a laser dinghy on a lake, or roar around the Solent on a fleet of catamarans – either way, we can provide what you need!

Classic Ship Sailing

For sailors & landlubbers alike, there is little to match the experience of sailing on a classic Tall Ship. Tall, stately vessels, carrying thousands of square feet of sail, these ships were the mainstay of the merchant fleet well after the introduction of engines. Make no mistake – these are sailing ships. A large crew can comfortably be employed at any one time to work the vessel to its capacity and make it "fly". Alternatively, its wide decks & covered saloons (once the cargo hold) provide spacious and luxurious areas within which to relax, enjoy the scenery or perhaps to just sit back with a long, cool glass of Pimms?

Treasure Hunts

Water-based treasure hunts are a great way to explore rivers, lakes or oceans, allowing guests to experience the best bits the location has to offer alongside a fun, light-hearted exercising of the grey matter... these can be arranged for any mode of water transport too, from Tall Ships to speedboats, pedalos, canoes or rowing boats! One of our most popular is The Great Thames Treasure Hunt, combining a cruise on a classic ship with clues and mysteries to be found at a variety of piers and sites along the river...and Tower Bridge opening especially for you!

Powerboats

Take one or more speedboats or RIBs, each equipped with a 300hp engine (capable of doing around 50 knots). Learn how to handle them, whilst enjoying the sights and create some serious wake!

Radio Controlled Speedboat Relay

Each team must complete as many laps of the lake as they can, with drivers changing on the whistle, and at random, blindfold driving rounds (the rest of the team vocally guiding the driver). Strategy is required as every 3 minutes or so, a battery change is required, meaning the team must plan carefully when to bring their ship into "dock" to change batteries – too soon and they waste time, too late and the boat will need rescuing, ensuring big time penalties...

ZapCats

Feel the awesome power and handling of these amazing inflatable 75kg catamarans as they pull 3G turns. With a power-to-weight ratio of 340bhp per tonne, you are going to have an adrenalin pumping, action filled ride... not as a passenger but as a co-pilot! So helmets at the ready, grip tight and smile: it will be fast and fun!

Classic Ships & Historic Weapons Experience

Many people may have been sailing, others may have been shooting, but very few will have done both together.... combining the two on a historic ship makes for a most unusual and memorable day. We like to keep to the historic theme with the shooting so, in addition to normal clay guns, your guests can choose from a Napoleonic musket, blunderbuss, or an eight-bore 'elephant-gun', all fired from the deck!

Quiz-Cruise

Take a fantastic historic ship or cruiser on any river, add a series of nautical-related activities, quiz & scavenger elements and you end up with a superb day out which can be adapted to suit the time available.

"Everyone loved the activities that you set up for us and I have had nothing but positive comments regarding the way the afternoon activities were run! Please can you thank all of your staff for making the afternoon so much fun! Thanks so much!"

"I would like to thank the M&MR organisation for the efficient management of our company AGM activities. The event was a total success, as a direct result of your dedicated and professional team. We were thoroughly impressed by the way you made us all feel welcome. We were made to feel safe and everyone was encouraged to play an active part. The team building activities certainly brought our staff closer which meant the company gained maximum benefit from the day."
