

Conference Production

Conference production is an essential part of any professional event. You may just require a PA system and LCD projector, or a full set with lighting displays, special effects and full theming. We can assist with all aspects of your event, from the overall theme of the occasion, to the specific tasks of set design and construction, audiovisual technology, creative lighting and software development.

M&MR'S conference production service covers creative, technical, logistical and operational requirements, together with technicians and any specialist services that may be required. We have a proven track record for providing a high class service that will deliver results on time and to budget. From brief to completion, you will be safe in our hands.

For further details, simply contact M&MR on 01295 770933

Sound

To ensure that your important messages reach your audience we will provide you with a high quality professional sound package to meet your requirements, tailoring those needs to the acoustics of your room.

Projection

Using state-of-the art projectors and screens, we will make certain your slides, videos and live footage reaches your audience in the highest possible resolution, ensuring that your messages come across clearly. If the venue is big enough you could have back projection or we can rig the projectors from a truss, or use ceiling hanging points if available.

Lighting

Effective lighting will help highlight your speakers, stage and branding, and with the addition of intelligent lighting create that special "wow factor" to make your conference the most memorable yet. We can create personalised gobos for you, to include your logo or conference strap line, providing a multi coloured moving image that can be projected onto the stage, ceiling or even the floor to create a truly stunning entrance for your delegates.

Set & Stage

Depending on the size of your room and audience, you could choose from one large screen – or any combination of multi screens - to ensure that your message is seen by all. The screen will be built into a set that can be fully personalised and branded for the occasion. The stage can be designed to accommodate any number of speakers, enabling on-stage presentations to be at a height that ensures that your delegates will miss nothing.

For your Presenter

Our equipment includes pre-view monitors, cue systems, speaker timers, and laser pointers to give your presenters all the back-up they need. Pre conference rehearsals are recommended and will give your speakers that additional confidence.

Pre Conference Production

PowerPoint preparation, film footage and personalised animations will give your event that truly professional touch. Our skilled technicians will work with you in order to provide the best possible material.

Technical Support

We will appoint a dedicated team of specialist technicians who will work with you and provide a slick and professional production. We will work closely with you in the run up to the event, and ensure that everything is ready and tested well in advance.

Filming

Whether it is pre-conference filming, post conference editing or live footage relayed onto the screen, filming can enhance your conference. Live footage provides you with a valuable source to monitor previous conference productions and you can even include certain past edited clips in your next major event.

Theming

Theming, branding and personalisation with the use of props, backdrops, lights and projectors transform your conference or event into something truly spectacular. We can transform a warehouse into a palace or a conference room into an Arabian souk, whatever suits you.

"...all my thanks for the great event you put together at our Annual Conference. Your team was really professional and we were very impressed by the originality... and your entertainment during the evening meal worked very well."

"Just wanted to formally thank you and your team for a splendid and professional afternoon of activities. The team thoroughly loved it and their expectations for future conferences will be at the same level. So watch this space! Many thanks again."

"Just wanted to thank you and your team for the service they provided on Friday - everyone was great. All enjoyed themselves and I've had lots of fantastic feedback e.g. 'best Company Conference ever'. Will probably be in touch about this time next year!"
